Faster repairs and claims processing

Zurich has partnered with a leading national motor repair group who offer repair solutions for customers' damaged motor vehicles as well as managing third party vehicle repairs.

Booking a repair is easy and convenient. Simply lodge the claim by phone or online and a Zurich booking agent will find the right repair location to have the vehicle repaired in the shortest time. There's no waiting for assessors and quotes, customers deliver the vehicle and arrange to pay the excess when the vehicle is repaired.

Consistent quality control

The Priority Repair Service providers use the latest technology and processes with quality control at each stage of the repair. Customers can choose to receive SMS or email updates at each stage of repair. Zurich's own assessors conduct regular checks on the repairer's process and work, providing an additional layer of quality assurance.

Q&A

Who can receive the priority repair service?

Any insured light commercial vehicle, less than 2.7 tonnes that is repairable and has damage less than \$20,000.

Is this a re-badge of Zurich's approved repairer network?

It's more than a re-badge. It's an enhanced service which optimises the customer experience by leveraging the scale and resources of a best practice repair network.

Are customers free to choose their own repairer?

Yes. Insured customers have the option to use their own repairer. Zurich's priority repair service removes the hassle of obtaining quotes and waiting for an assessor.

Is there a cost benefit for Zurich?

Yes. Based on the volume of business from Zurich, the repair network can provide a lower cost benefit which may flow through to stable insurance pricing.

Is there an extra charge?

No.

Do customers receive a hire car?

Customers have the option to receive a hire car (when included in the policy). Policy benefits will be confirmed when the claim is lodged. After dropping off the vehicle, customers also have the choice of a taxi in lieu of a hire car, should they wish.

How does a customer access the priority repair service?

Simply lodge your claim by phone or online and a Zurich booking agent will find the most appropriate repairer and date for the vehicle drop off.

When do I pay the excess?

When the customer drops off their vehicle the repairer will explain that the excess is payable at or prior to collecting the repaired vehicle.
