Issue Date: 1 October 2024

# Overview

## How to read this document

As a Zurich Active policyholder, you receive guaranteed upgrades to your cover. If we review and update our Zurich Active product and these updates don't result in an increase to your premium, you receive the upgrade automatically.

This document details Active product updates and aims to help you understand the improvements to your policy since it commenced. Changes marked with an asterisk (\*) are brand new options for which an extra premium applies. You have the option to apply for these to be added to your policy.

Your policy schedule shows the commencement or start date of your policy. Use this date to determine which sections of this document apply to you. For example, if your policy start date is 5 July 2012, you have automatically received all changes effective from that date onwards which are relevant to the type of policy and cover you hold.

Please make note of the type of policy and cover you hold – for example, an Active Cover policy (containing Death, Terminal illness and Health events) or an Optional Income Cover policy – and ensure you read the details in the table pertaining to that type of policy. The improved terms for each feature only apply they impact a benefit included in your policy and cover type, or if your policy schedule shows that the life insured is covered for that benefit or option.

The outline of changes is a summary only and you should refer to the relevant Product Disclosure Statement (PDS) for full details of the terms and conditions of the upgraded benefit. The terms in italics have a special meaning and are explained in the relevant PDS indicated.

If you would like to add any options to your policy or you have any questions, please do not hesitate to contact Zurich Customer Care on 131 551 or email us at [client.service@zurich.com.au](mailto:client.service@zurich.com.au).

## Effect on your existing Zurich Active policy

The upgraded benefits and definitions will only apply to claims arising from conditions which first occur, are first diagnosed, or which first become reasonably apparent on or after the effective date of the change (unless indicated in the summary). Should the upgraded terms and conditions result in a less favourable outcome in the event of a claim, the original terms and conditions of the Active policy under which you applied can be relied upon.

If there are new requirements to qualify for a benefit in the updated definitions, you can qualify for the benefit using either the existing definition or the updated one. Any new exclusions specified in the updated definition will only apply to claims made under the new definition.

Only definitions specified in the Summary of changes document from the relevant PDS indicated will apply to existing policies; other definitions contained in the relevant PDS indicated do not apply. Prior PDSs are available on our archive online at [zurich.com.au/pdsarchives](http://zurich.com.au/pdsarchives) or by contacting us.
