

# Zurich Super Protector

## Summary of changes

## Overview

As a Zurich Super Protector policyholder, you receive guaranteed upgrades to your cover. If we review and update our current insurance products and these updates do not result in an increase to your premium, you receive the upgrade automatically.

This document details Super Protector product updates and aims to help you understand the improvements to your policy since it commenced. Changes marked with an asterisk (\*) are brand new options for which an extra premium applies. You have the option to apply for these to be added to your policy.

Effective 21 May 2011, your Super Protector policy was aligned with FutureWise, a similar life insurance product, and enhancements made to FutureWise from that date which did not result in an increase in premium are passed on to you.

Please make note of the type of policy and cover you hold – for example, a Life Insurance policy or a Disability Income Insurance policy – and ensure you read the details in the table pertaining to that type of policy. The improved terms for each feature only apply if it is in relation to a benefit included in your policy and cover type, or if your policy schedule shows that the life insured is covered for that benefit or option.

The upgraded benefits and definitions will only apply to claims which arise as a result of events or conditions that first occur on or after the effective date of the change. Should the upgraded terms and conditions result in a less favourable outcome in the event of a claim, the original terms and conditions of the Super Protector policy under which you applied can be relied upon.

The outline of changes is a summary only and you should refer to the relevant PDS for full details of the terms and conditions of the upgraded benefit. The terms in italics have a special meaning and are explained in the relevant PDS, or where there is no relevant PDS, then in a PDS update. For example, on 15 May 2017, the definition of terminal illness was improved and you should refer to the definition of terminal illness in the PDS update dated 15 May 2017. Prior Super Protector and FutureWise PDSs are available on our archive online at [www.zurich.com.au/pdsarchive](http://www.zurich.com.au/pdsarchive) or by contacting us.

If you would like to add any options to your policy or you have any questions, please do not hesitate to contact Zurich Customer Care on 131 551 or email us at [client.service@zurich.com.au](mailto:client.service@zurich.com.au).
